Career Objective:

As a Beginner in the Industrial field, I would like to build a career with making the best use of creative and logical skills which help the company and my coworkers be successful.

Education:

Institute/college	Board	Passing	percentage
Narayana Engineering College Nellore	JNTUA	2020	65.38%
Sri Chaitanya Boys Jr College	AP Board of intermediate education	2015	84%
Triveni School	AP Board of secondary education	2013	75%

Internship(s):

Role: Software and Embedded Engineer
Company Name: Expertshub
January 2019
Problem Statement: In the modern society, there is an ever-increasing number of vehicles. This is leading to problems such as large urban parking lots becoming inefficient, increasing difficulty to find open spaces in busy parking lots, as well as the increasing need to devote larger areas of land for additional parking spaces.
-My project output video at: *https://gofile.io/?c=oVwOxR*
